

Management Information Systems(MIS)

Program name:	Management Information Systems
Degree of program (BA, Diploma)	Bachelor Degree
Department	Management Information Systems
Faculty	Information Technology
Head of Department	Mr.SamehTaqtqa Email: sameh@paluniv.edu.ps

1. Overview

Management Information Systems is an interdisciplinary program that employs Information Technology in Business Administration and Management to enhance and facilitate decision making processes and accountability in administrative work. The Bachelor in MIS program aims to prepare graduates who can work in today's business environments, which rely heavily on managerial and IT systems.

The program is hosted within the faculty of Information Technology and is connected to both IT and Business Administration programs. Knowledge areas are integrated into courses found within various faculty programs where they are taught by established faculty members within each relevant faculty as well as across other departments within the university.

The bachelor degree program in Management Information Systems has a study plan of 131 credit hours distributed between theoretical and practical courses.

The academic plan of this program has been prepared according to the American Accreditation Board for Engineering and Technology (ABET).

2. The required hours of the bachelor degree program

University		Faculty		Department		Free	Total
Compulsory	Elective	Compulsory	Elective	Compulsory	Elective		
24	3	22	0	70	6	6	131

3. Admission requirements in MIS program:

Admission requirements: All Tawjihi students from Scientific, Social, Commercial, Industrial, IT, and Entrepreneurial streams with minimum score of 65% (or based on minimum score conditions set by the ministry of Education & Higher Education) are eligible for the program.

Continuation requirements: Students wishing to stay and continue their studies in the program must have a minimum grade of 1.67 (or 70%) in the following courses:

- Basics of Computer and Programming (410131)
- Introduction to MIS (430101)

- Principles of Management (310100)

AND

Secure department approval. In the case where the number of applicants is higher than allocated places, students are accepted based on their average in the above 3 courses in addition to other university courses.

4. Intended learning outcomes:

Graduates are expected to have:

1. Ability to apply IT skills and concepts to solve administrative tasks,
2. Knowledge in analysis, design, and implementation of information systems to serve administrative and managerial operations,
3. Ability to manage Information Systems Development Life Cycle,
4. Knowledge in applying decision making processes to solve managerial issues,
5. Gain knowledge about; attest subjects and issues related to Information Technology,
6. Ability to process information,
7. Ability to use information for problem solving and decision making,
8. Ability to develop applications that assist in the automation of work and elimination of paperwork,
9. Ability to solve administrative problems using technology,
10. Ability to redesign business processes within an organization to increase efficiency,
11. Work as a link between various business departments/managerial levels and the IT department in organizations,
12. Ability to work within a team.

5. Work fields

Potential places of employment	Possible functional title
<ol style="list-style-type: none"> 1. Education institutions, 2. Higher Education institutions, 3. Different ministries and organizations, 4. IT companies, 5. Banks, 6. Private sector, 7. Public institutions. 	<ol style="list-style-type: none"> 1. System Analyst / Software Engineer, 2. IT Department Manager, 3. Business Analyst, 4. Information Technology Infrastructure Specialist/Expert, 5. CTO/CIO, 6. IT Lab assistant/technician, 7. Administrative employee, 8. Web-application designer and developer, 9. Teaching and Research Assistant,

10. IT Project Manager.

Components of the Study Plan.6

First: University Requirements (27 Cr.Hrs) including the following:

- A. Compulsory Requirements (24) Cr.Hrs
- B. Elective Requirements (3) Cr.Hrs

A. University Compulsory Requirements (24) Cr.Hrs, include the following:

Course. No	Course Name	Number of credit hours			Pre-requisites
		Cr. Hrs	Lecture Hrs	Lab Hrs	
110100	Remedial Arabic *	0	0	-	-
110101	Arabic Language Skills 1	3	3	-	-
110102	Arabic Language Skills 2	3	3	-	Arabic Language Skills I (110101)
112101	Physical Education	1	1	-	-
113200	Overview of Palestine	3	3	-	-
120100	Remedial English **	0	0	-	-
120101	English Language Skills 1	3	3	-	-
120102	English Language Skills 2	3	3	-	English Language Skills I (120101)
130300	Community Service	1	1	-	-
151102	Islamic Culture	3	3	-	-
410131	Basics of Computer Programming	3	3	0	-
410211	Critical Thinking Skills	1	1	-	-
Total		24	Credit hours		

* – Mandatory requirement for students who fail the Arabic language abilities test.

** – Mandatory requirement for students who fail the English language abilities test.

B. University Elective Requirements (3)Cr. Hrs, Including the following:

Course No	Course Name	Number of credit			Pre-requisites
		Cr. Hrs	Lecture Hrs	Lab Hrs	
142211	The Arab World & Contemporary Challenges	3	3	-	-
210270	Democracy, Human Rights and International Humanitarian Law	3	3	-	-
210260	Law in our Lives	3	3	-	-
141210	Geography of Palestine	3	3	-	-
540102	Nutrition Science	3	3	-	-
510111	First Aid	3	3	-	-
510121	Introduction to Health Care	3	3	-	-
651101	Biography of the Prophet	3	3	-	-
651202	Family Systems in Islam	3	3	-	-
110104	Library Science	3	3	-	-
120208	Hebrew	3	3	-	-
120104	French	3	3	-	-
120105	Italian	3	3	-	-
120106	Spanish	3	3	-	-
Total		3	Credit hours		

Second: Faculty Compulsory Requirements (22) Cr. Hrs, Include the following:

Course No	Course Name	Number of credit			Pre-requisites
		Cr. Hrs	Lecture Hrs	Lab Hrs	
310100	Principles of Management	3	3	-	-

410132	Introduction to Information Technology	3	3	-	-
410247	Statistics and Probability	3	3	-	-
410200	Life Skills	3	3	-	-
410204	Research Methodologies	3	3	-	Statistics and Probability (410247) (410247)
410104	Computer Programming	3	3	-	Introduction to Information Technology (410132)
410105	Computer Programming Lab	1	-	1	In parallel with computer programming (410104)
410201	Entrepreneurship & Creativity	3	3	-	Life skills (410200)
Total		22Credit hours			28

Third: Department Requirements (76) Cr.Hrs including the following:

A.Compulsory Requirements (70) Cr. Hrs:

B.Elective Requirements (6) Cr. Hrs:

A. Department Compulsory Requirements (70) Cr.Hrs, include the following:

Course No	Course Name	Number of credits			Pre-requisites
		Cr. Hrs	Lecture Hrs	Lab Hrs	
430101	Management Information Systems	3	3	-	Principles of Management (310100) Basics of Computers and Programming (410131)
330100	Principles of Microeconomics	3	3	-	Principles of Management (310100)
320100	Principles of Accounting I	3	3	-	Principles of Management (310100)
430202	Principles of Marketing	3	3	-	Principles of Accounting I

					(320100)
430208	Managerial Accounting	2	2	-	Principles of Accounting I (320100)
430206	Principles of Financial Management	3	3	-	Principles of Accounting I (320100)
430303	Risk Management Systems	3	2	1	Principles of Financial Management (430206)
430302	IT Project Management	3	2	1	Risk Management Systems (430303)
430306	Operations Research & Quality Management	3	3	-	Principles of Management (310100)
430305	Human Resource Management	3	3	-	Principles of Management (310100)
410321	Object Oriented Programming	3	3	-	Computer Programming (410104)
410322	Object Oriented Programming Lab	1	0	1	In parallel with Computer Programming (410104)
430107	Math in Management Sciences	3	3	-	-
420234	Web Applications Design	3	2	1	Computer Programming (410104)
430401	Strategic Management in IT	3	3	0	IT Project Management (430302)
410333	Software Engineering	3	2	1	Computer Programming (410104)
410325	Database Management	3	2	1	Software Engineering (410333)

Systems					
430403	Enterprise Applications Development	3	2	1	Object Oriented Programming (410321) Database Management Systems (410325)
430318	Business Analytics	3	2	1	Operations Research & Quality Management (430306)
430406	Decision-making Support Systems	3	2	1	Operations Research & Quality Management (430306)
430408	Enterprise Resource Planning	3	2	1	Strategic Management in IT (430401)
430409	Graduation Project I	1	1	-	-
430410	Graduation Project II	3	-	3	-
430200	Practical Training I	-	3	3	-
430300	Practical Training II	-	3	3	-
Total		70 Credit hours			

B. Department Elective Requirements (6) Cr. Hrs, Including the following:

Course. No	Course Name	Number of credit			Pre-requisites
		Cr. Hrs	Lecture Hrs	Lab Hrs	
410105	Advanced Computer Programming	3	3	-	Computer Programming(410104)
420242	Introduction to E-Learning	3	3	-	Introduction to Information Technology (410132)
420132	Introduction to Networks	3	2	1	Basics of Computers and Programming (410131)
410323	Visual Programming	3	2	1	Software Engineering (410333)

310302	Sales Management	3	3	0	Principles of Marketing(430202)
310402	Production Management	3	3	0	Principles of Management (310100)
330203	Advanced Financial Management	3	3	0	Principles of Financial Management(430206)
410426	Database Programming	3	3	-	Database Management Systems (410325)
430404	Special Topics in MIS	1	2	-	Case studies using living lab
310307	Organizational Behaviour	3	3	-	Principles of Management(310100)
410450	Multimedia	3	3	-	Visual Programming (410323)
410293	Managing IT Resources	3	3	-	-
410347	Electronic Commerce	3	3	-	Web Applications Design (420234)
420102	Ethics in the Information Age	3	3	-	-
Total		6 Credit hours			

7. Practical training (6 Cr. Hrs)

Practical Training consists of two phases and is offered during the summer semester in years 2 and 3. Students are exposed to real business environments through work-based learning/training for 40 hours/week for 8 weeks in a placement relevant to their studies. For each practical phase, there is department-level course that students must take. The course is assigned to one of the MIS department faculty members, who are responsible for monitoring and evaluating students' progress throughout training through site visits. At the end of each phase, each student should submit a written report summarizing their experience during training as well as make a presentation in front of the department's faculty members.

8. Graduation projects / research

Graduation project, class projects, and research projects are all implemented in the Living Lab, which provides students with real business case studies in order for students to find solutions to various business problems. These case studies are created in cooperation with the local private sector. The Living Lab is located within the faculty of IT.

9. Educational facilities to support educational learning

Facilities and laboratories:

* **computer labs:** There are seven labs in the University

- ✓ **Computer Lab 1:** Main building, 1st floor with 30 PCs
- ✓ **Computer Lab 2:** Main building, 3rd floor with 22 PCs
- ✓ **Computer Lab 3:** Law faculty, 3rd floor with 22 PCs
- ✓ **Computer Lab 4 for Multimedia:** Main building, 4th floor with 20 PCs
- ✓ **Computer Lab 5:** Medical Sciences faculty, 3rd floor with 25 PCs
- ✓ **Computer Lab 6:** Medical Sciences faculty, 3rd floor with 30 PCs
- ✓ **Living Lab** where students perform labour market related business challenges in transform solution to IT products or services. Graduation projects are also implemented in the Living lab.

** **Facilities and Auxiliary Units:**

E-Learning Centre:

The studying system at the University is based on credit hours supported through a blended learning model. An E-learning centre was established at the University in 2009. More information about e-Learning centre services can be found at the following link: (<http://eclass.paluniv.edu.ps>).

E-library:

The university website has an E-library gate which provides the following services:

- ✓ Online Searching and Booking.
- ✓ Facilitate access to open source references, files and e-books.
- ✓ Access to international libraries related to the faculty's specializations.

The University website has an electronic portal (<http://registrationportal.paluniv.edu.ps>) which enables:

- ✓ The students to register online.
- ✓ The students to see their marks, academic program and any other academic information.
- ✓ Communication and information exchange between the university colleges and departments.
- ✓ The academic supervisors to follow up with the student's registration status and any academic issues.
